This workshop will help you better understand the Individualized Education Program (IEP) for children and youth who receive special education services. When you understand the IEP process, and how to participate, you will have a better chance of your child getting the services they need to be successful in school.

Participants encouraged to bring their child’s IEP for personal reference during the workshop. Our goal is to help you understand the key IEP components and how they work together:

- The present level of academic achievement and functional performance (PLAAFP statement)
- Writing measurable goals and objectives
- Support services
- Plan implementation.

Who should attend? Families of children/young adults with disabilities/learning challenges, school staff, community members, and organizations.
