What are your expectations?

Start with the end in mind!

Individuals with Disabilities Education Act (IDEA)

Individuals with Disabilities Education Act - (IDEA)

Disability is a natural part of the human experience and in no way diminishes the right of individuals to participate in or contribute to society. Improving educational results for children with disabilities is an essential element of our national policy of ensuring equality of opportunity, full participation, independent living and economic self-sufficiency for individuals with disabilities.

Least Restrictive Environment

Individuals with Disabilities
Education Act (IDEA)

Educational placement is the setting where your child receives his or her education and services. Schools must place students in the least restrictive environment (LRE). **That means students must be placed in the general education setting to the greatest extent possible to receive supports and services as determined by the individualized education program team.**

BENEFITS OF INCLUSION

3. They are provided with competent peers with whom to interact and thereby learn new social and/or communicative skills.
4. They are provided with realistic life experiences that prepare them to live in the community.
5. They are provided with opportunities to develop friendships with typically developing peers
