The Rosa Parks video is from the book and training by Paul Schmitz, Everyone Leads. It points out that there were many people involved in the bus boycott and helped with the civil rights movement, even though the main person was Rosa Parks. There is a lot that can be done behind the scene and still be considered leadership. Many of the participants were not aware of all the work that happened before the planned bus boycott and it made them think about leadership differently, considering that anyone can affect change.
