Transition planning is a process to assist students with an Individualized Education Program move from school to post-school activities. A transition plan identifies opportunities for the student to gain knowledge and skills needed for continuing education, work, and community participation, in preparation for adult life.

This online workshop will teach participants how the IEP transition plan can be used along with community resources to plan a smooth transition from school to adulthood.

- Understand the legal requirements of IEPs regarding transition planning and why it's important
- Understand the different parts of your student's transition plan
- Learn about options for life after school
- Access community resources for adult life

**Who should attend?** Families with middle and high school aged children, and members of the community who support these students.
