Transition planning sets the goals and activities that will help a teenager achieve their post-high school plans. This online workshop will provide an overview of supports that can assist young adults with the transition from school to adult life.

- Understand the transfer of parental rights at the age of majority
- Learn the basics of guardianship and alternatives to guardianship
- Gain an understanding of public benefits that may be available
- Understand the principles of person centered planning and self-determination
- Learn about adult services that assist individuals with employment, accessing community resources, and independent living

Who should attend? Families of teens/young adults with disabilities, school staff and other community members.
