

Navigating Mental Health as Students Return to School

with Margo Pierce, Association for Children's Mental Health

Join the Association of Children's Mental Health to discuss how supporting student's social, emotional, behavioral and mental health needs is key to learning and school success.

This webinar will explore and discuss:

- Understanding what mental health struggles look like in your child
- Navigating the 504 or IEP process for social, emotional, behavioral, and/or mental health challenges
- Accommodations, supports, and strategies to help your child manage mental health needs at school
- Social-emotional learning and support

Who should attend? Families with a child or young adult with disabilities or learning challenges, school staff, other community members.
