**As social beings, we all crave relationships with others to make life more enjoyable and enrich our daily lives. Yet building meaningful friendships can be a challenge for us all, including those who have a disability.**

During this webinar we will explore and discuss:

- The definition of friendship and the different ways it can look
- The benefits of friendship and the impacts of lack of social connection
- The barriers to friendship and how to overcome them at home, at school, and in the community
- Ways to be a better friend for peers, both with and without disabilities

**Who should attend?** Families with a child or young adult with a disability, school staff, other community members.
