

Supporting Student Mental Health

with Dianna Robinson, Association for Children's Mental Health

Meeting the mental health needs of students is important for their success at home and at school. ACMH joins us to share school-based mental health initiatives, family approaches, and helpful resources.

This webinar explores questions like:

- How do mental health and school performance impact each other?
- What do mental health challenges at school look-like socially, emotionally, and behaviorally?
- What does it look like when youth are well-supported?
- How to unlock success, get support, access accommodations, and make connections?

Who should attend? Families or caregivers of students with mental health needs, disabilities, or learning challenges. School staff and community members are also welcome.
