Words are powerful. Join us to explore strategies to address ableism and promote a diverse, equitable, and inclusive world. Can we embrace the word “disability” as an aspect of identity?

In this workshop we will explore how society views disability and how that impacts people with disabilities across the lifespan.

We will take a closer look at bias against people with disabilities and what we can do as individuals to address ableism.

- Understanding what ableism is and how it affects your child
- Learning ways to effectively advocate for change
- What IDEA says

Who should attend?

Families with a child with a disability or learning challenge, school staff, other community members.
