Heading off to preschool? Students with disabilities should attend preschool with non-disabled peers. But navigating preschool is different than kindergarten or the *Early On* program.

Join this free, online workshop to learn more about preschool options that are available for students with an IEP (Individualized Education Program), and how special education and related services work for preschoolers.

In this workshop you will learn more about:

- Researching preschool options
- Least Restrictive Environment and the benefits of inclusion
- Rights and protections
- Supports and services available

There will also be time set aside to ask questions.

Who should attend?

Families with a child in or getting ready for preschool with a disability or developmental concern.
