Individuals with Disabilities Education Act

IDEA

"Disability is a natural part of the human experience and in no way diminishes the right of individuals to participate in or contribute to society. Improving educational results for children with disabilities is an essential element of our national policy of ensuring equality of opportunity, full participation, independent living, and economic self-sufficiency for individuals with disabilities."

Michigan Alliance for Families
Educational Advocates and Educators

4

IDEA

The Individuals with Disabilities Education Act (**IDEA**) is a law that makes available a free appropriate public education to eligible children with disabilities throughout the nation and ensures special education and related services to those children.

The Michigan Administrative Rules for Special Education (**MARSE**) outlines specific requirements regarding how special education be implemented in Michigan.

MARSE

Rehabilitation Act of 1973, which includes **Section 504**, is a civil rights law that protects qualified individuals from discrimination based on their disability.
Note: 504 Plans are not special education

Michigan Alliance for Families
Educational Advocates and Educators

5

Individualized Education Program

Each eligible child with a disability is entitled to a free appropriate public education (FAPE) that emphasizes special education and related services designed to meet the *child's unique needs and that prepare the child for further education, employment, and independent living*. 20 U.S.C. §1400(d)(1)(A).

Under the IDEA, the primary vehicle for providing FAPE is through an appropriately developed IEP that is based on the individual needs of the child.

IEP

Michigan Alliance for Families
Educational Advocates and Educators

6

Free Appropriate Public Education

Individuals with Disabilities Education Act (IDEA)

- Special Education and related services are provided by public schools at no cost to parents
- The IEP provides information about how your child's education is personalized to meet his or her needs
- Children receiving special education programs and related services have a right to receive an education provided by the public-school system
- The education should prepare all children for their future including postsecondary education, employment and independent living

7

Least Restrictive Environment

Individuals with Disabilities Education Act (IDEA)

Educational placement is the setting where your child receives his or her education and services. Schools must place students in the least restrictive environment (LRE).

That means students must be placed in the general education setting to the greatest extent appropriate to receive supports and services as determined by the individualized education program team.

8

What does the IEP cover?

Academic

Non-Academic

Extracurricular

9

Educational Needs vs. Service

Service

- More Speech Therapy
- 1:1 Paraprofessional
- More time with reading teacher

Needs

- People need to understand them when they talk
- More effective social skills
- Why a paraprofessional – what is need
- To understand what s/he reads

10

Student's Needs: <ul style="list-style-type: none"> • Strengths • Weaknesses • What helps or interferes with learning • Objective Data • General Education Curriculum • Extra Curricular • Non-Academic 	Skills or behaviors the child will learn		

Determining a Free Appropriate Public Education (FAPE) Least Restrictive Environment (LRE)

20

Goals, Objectives, and Progress Monitoring

What's next and how's it going?

21

Goals

IEP goals are the specific skills or behaviors the student will master in one year's time

Objectives

Objectives are benchmarks or short-term steps to reach the annual goal

22

What does IDEA say about goals?

A statement of measurable annual goals, including academic and functional goals designed to—

- (A) Meet the child's needs that result from the child's disability to enable the child to be involved in and make progress in the general education curriculum; and
- (B) Meet each of the child's other educational needs that result from the child's disability;

For children with disabilities who take alternate assessments aligned to alternate academic achievement standards, a description of benchmarks or short-term objectives;

23

Andrew F. v. Douglas County School District

2017 U.S. Supreme Court unanimous decision

- "to meet its substantive obligation under the IDEA, a school must offer [a child] an [individualized education program] IEP reasonably calculated to enable a child to make progress appropriate in light of the child's circumstances."
- emphasized the requirement that "every child should have the chance to meet challenging objectives."

24

Well-Written Goals

Based on PLAAFP <ul style="list-style-type: none"> • Academic • Developmental • Functional 	Positive <ul style="list-style-type: none"> • What will be taught 	Describe a skill or behavior <ul style="list-style-type: none"> • Seen and measured
--	---	---

Michigan Alliance for Families

25

SMART Goals

- S** Specific
- M** Measurable
- A** Appropriately Ambitious
- R** Realistic & Relevant
- T** Time Specific

Michigan Alliance for Families

26

What is Measurable?

Components of the goal

- A. Current level of performance (**baseline**)
- B. Specific skill or set of skills to be taught and measured
- C. Target or outcome**
- D. Method of measurement

Michigan Alliance for Families

27

Admirable Outcomes ≠ Goals

- Have a good attitude
- Develop healthy relationships
- Will not disrupt class
- Engage in content
- Be kind
- Not hit or kick
- Develop a love of reading
- Commit to academic success
- Show respect for authority

28

What does IDEA say about progress?

A description of—

- (i) **How the child's progress** toward meeting the annual goals described in paragraph (2) of this section will be **measured**; and
- (ii) **When** periodic reports on the progress the child is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;

29

The IEP Process

Determining a Free Appropriate Public Education (FAPE) Least Restrictive Environment (LRE)

30

Supplementary Aids and Services

Supplementary aids and services means aids, services, and other supports that are provided to enable children with disabilities to:

- Make progress in their annual goals
- Be involved in and make progress in the general curriculum
- Participate in extracurricular and nonacademic activities
- Be educated with nondisabled children to the maximum extent appropriate

31

Types of Supplementary Aids

1. Universal Supports
2. Accommodations
3. Modifications

32

Universal Supports

Universal Supports are considered best practices. They support a specific need for a person or group and are available for everyone to use.

Possible Examples:

- Flexible seating
- Posting the daily schedule
- Movement breaks

Documenting universal supports in the IEP ensures the student will receive that support as an entitlement in the event they change teachers or move schools or districts.

33

Accommodations & Modifications

adjustment or adaptation

- Scheduling
- Setting
- Materials
- Instruction
- Student Response

Michigan Alliance for Families
Instruction, support, and education

34

HOW

Accommodations

changes that help students overcome the barriers presented by their disability

Do not change the expectations for learning

Michigan Alliance for Families
Instruction, support, and education

35

Modifications

changes that help students and are used when the student needs more support than accommodations provide.

36

Big Difference

HOW

Accommodations

HOW the student learns is changed

WHAT

Modification

WHAT the student learns is changed

37

Course of Study: Michigan Merit Curriculum

The Michigan Merit Curriculum is the result of an extraordinary partnership between the Executive Branch, State Board of Education, Superintendent of Public Instruction, Legislature and numerous education associations. [MCL 380.1278a](#), [MCL 380.1278b](#)

High School Diploma

- English Language Arts – 4 Credits
- Mathematics – 4 Credits
- Online Learning Experience
- Physical Education & Health – 1 Credit
- Science – 3 Credits
- Social Studies – 3 Credits
- Visual, Performing and Applied Arts – 1 Credit
- World Language – 2 Credits

38

Michigan Merit Curriculum: Personal Curriculum

Result: High School Diploma

- Allows for specific credit requirements and/or content standards to be modified based on the individual learning needs of a student.
- It is designed to serve students who want to accelerate or go beyond the MMC requirements as well as students who need to individualize learning requirements to meet the MMC requirement.

39

Course of Study: No diploma

In Michigan, a student with an IEP, leaving high school without a diploma may remain eligible for special education programs and services until age 26 years.

- Based on students Measurable Post-Secondary Goals:
 - Education/Training
 - Employment
 - Independent Living, if appropriate
- What is available, within the high school environment:
 - General Education Classes
 - Extra Curricular Activities
 - Non-Academic Activities
 - Work Experience
- What is available after high school:
 - Young Adult Transition Programs
 - Coordination with Adult Services

40

41

Special Education & Related Services

Audiology	Counseling	Early Identification & Assessment	Interpreting
Medical	Occupational Therapy	Orientation & Mobility	Parent Counseling & Training
Physical Therapy	Psychological Services	Recreation	Rehabilitation Counseling
School Health Services	Social Work	Speech Language Pathology	Transportation

42

Frequency, Location, Duration

Frequency how often and / or under what condition

Location where aids and services will be provided

Duration how long each "session" will last (number of minutes) and/or when services will begin and end (starting and ending dates).

43

Special Education is not a place.

It is a **set of supports and services** provided to a student through an IEP

There are a variety of services and supports available that your child may need as part of their **Free Appropriate Public Education**.

These services and supports are designed to help your child:

- reach their annual goals;
- be involved and make progress in the general education curriculum; participate in extracurricular activities or other nonacademic activities; and
- be educated and participate with children without disabilities in these kinds of activities.

44

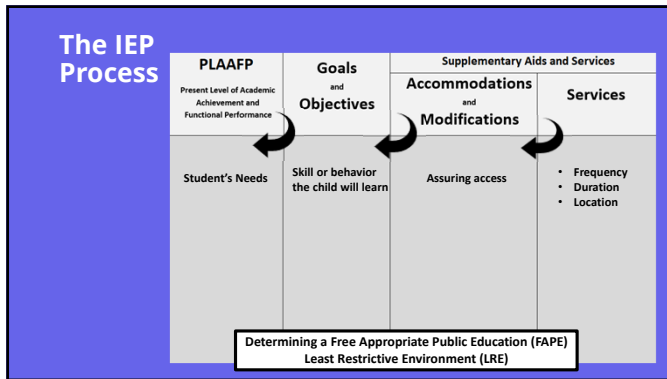

Least Restrictive Environment (LRE)

Once the IEP team has decided *what* services your child needs, decisions must be made about *where* services will be provided.

- Where your child's IEP is carried out is called *placement*.
- As the parent, you have the right to be part of the group that decides your child's placement.
- The group must make sure that your child has the maximum opportunity appropriate to learn with children who do not have disabilities—in academic, nonacademic, and extracurricular activities.

45

46

47

Action Plan

Review Your Child's IEP:

1. Review your child's PLAAFP statement, look for strengths, what helps learning, weaknesses, what interferes with learning, objective data and impact on general education curriculum, extra-curricular and non-academic activities.
2. Review your child's goals/objectives. Can they be tied back to information in the PLAAFP statement?
3. Does the PLAAFP statement include baseline data for each objective?
4. Review recent Progress Reports. Is there data that shows progress towards goals/objectives?
5. Review accommodations / modifications. Are the learning expectations changed?
6. Review the type and level of Special Education and Services. Are they sufficient to teach goals/objectives and assure accommodation and/or modifications are put in place?
