

Be A Data Detective

with Andrea Beachnau

OCTOBER 27, 2026

6:30PM - 7:30PM

REGISTER AT tinyurl.com/y8mde8e3

School evaluations, test scores, Individualized Education Programs (IEPs), and progress reports can feel overwhelming. Join us to learn how to become a Data Detective by gathering clues, decoding data, following the information through the IEP process, and asking questions when the story isn't clear.

We will explore:

- How clues are gathered from evaluations, observations and other data sources
- Making sense of common test scores
- Following the data into the IEP
- Examining whether supports and services are working
- Understanding meaningful progress and educational benefit
- Asking the right questions when the data doesn't tell a clear story

Who should attend?

Families with a child with a disability or learning challenge, school staff, other community members.
