Data connects parents to state accountability tools, giving them insight into how special education functions locally and statewide. By accessing dashboards, performance reports, and compliance tracking, communities can evaluate what is working well and identify areas that need improvement.

Join Julie Trevino and Amanda Way from the Michigan Department of Education, Office of Special Education, Performance Reporting Unit to explore:

- Federal reporting requirements
- State Performance Plan (SPP)
- MI School Data – Public Reporting of Indicators 1-14
- MI School Data – Data Portraits
