

Peer to Peer for Families

with The Statewide Autism Resources and Training

FEBRUARY 10, 2027

10:00AM - 11:00AM

REGISTER AT tinyurl.com/yfteyxve

START

Peer to Peer programs create opportunities for students to build friendships, foster a sense of belonging, develop leadership skills, and contribute to a more inclusive school community.

Join us to learn what Peer to Peer is, how it creates opportunities for students with and without disabilities, and why these programs are making a difference in schools across Michigan.

This family-focused session includes information about Participation and Helping Models, helpful resources, and opportunities to ask questions so you can better understand how Peer to Peer works and how your child can become involved.

We will explore:

- The difference between the Participation vs. Helping model and why it is important
- The impact Peer to Peer programs have on friendships and inclusion
- Peer to Peer Resources for school staff and families

Who should attend?

Families with a child with a disability or learning concerns, school staff, and other community members.
